Please list any official diagnosis below.

Health History - Please describe your health history and what issues you are currently dealing with (the more detail the better)

List your main symptoms in order of severity

1 - They bother you every day and impact your daily life and the last one on the list being symptoms that bother you from time to time.
Example:
1. Bloating and digestive issues
2. Chronic fatigue

What are your long term and short term goals (3 months and 1-2 years)

What supplements are you currently taking (please include brands)

What prescription medications are you taking?

Do you have any allergies? Please list any below.

What methods and or tactics have you tried to do previously to heal these issues if any?

Do you have a history of chronic dieting (yo-yo diets/fad diets) and or chronic periods of intense exercise? (please list in detail)

Please provide what you typically eat in a day (you can add more rows for meals if needed)

	Day 1	Day 2	Day 3
Breakfast			
Snack			
Lunch			
Snack			
Dinner			

If you can please provide 3 full days of macros (list in grams protein, fat, and carbohydrates)

This is not required and if you need more time you can skip for now and submit to Micaela and team later

	Protein	Fat	Carbohydrates	Calories
Day 1				
Day 2				
Day 3				

Select which nutrition support will fit you best!

- ◯ I need a daily schedule of what exactly to eat, specific portions, and also what exactly to avoid.
- ◯ I need a basic outline of meal frequency & timing with helpful tips on macro (protein, fat, and carb) breakdown for each meal to give me some flexibility.
- ◯ I need macro recommendations & recipe inspiration with guidance on what exactly to avoid
- ◯ I need intuitive eating support with recipes that are going to support me along with other recommendations based on testing

How do you prefer to receive nutritional support? (meal plans, meal guides, macros, or intuitive eating support)

Please describe where you feel like you struggle most when it comes to nutrition

When it comes to meal plans what is your preference on recipes (do you like to keep it super simple?)

Do you like have macro breakdowns provided on your protocols

◯ Yes ◯ No

Are there any foods you avoid or just don't like!

Please describe what a week of workouts looks like for you

What digestive symptoms are you currently experiencing, if any? Please provide as much detail as you can
